

Best Practices From Business And Beyond For Mathematics Teachers Problem

About the Book

This book provides mathematics teachers with a framework for implementing best practices from business and other disciplines to improve student learning. The book is divided into four parts:

1. **Part 1: The Business of Mathematics**
2. **Part 2: Best Practices from Business**
3. **Part 3: Best Practices from Other Disciplines**
4. **Part 4: Putting It All Together**

Each part of the book provides concrete examples of how best practices can be implemented in the mathematics classroom. The book also includes a chapter on assessment and evaluation, as well as a chapter on how to create a culture of learning in the mathematics classroom.
