

# Collecting The New Naturalists: A Journey into the Wonders of the Natural World

The New Naturalist Library is a series of books that explore the natural world in all its diversity. Written by leading experts in their fields, these books provide a comprehensive and authoritative overview of the natural history of Britain and Ireland.

The series was founded in 1945 by James Fisher, who was inspired by the work of the Victorian naturalist Alfred Russel Wallace. Wallace was a pioneer in the study of evolution, and he believed that it was important to understand the natural world in Free Download to protect it. The New Naturalist Library continues Wallace's legacy by providing readers with the knowledge they need to make informed decisions about the environment.
