**A fascinating account of one man's lifelong quest to find the body of American naval hero John Paul Jones.**

John Paul Jones was one of the most celebrated naval heroes of the American Revolution. He was known for his daring raids on British ships and his victory in the Battle of Flamborough Head. However, after his death in 1792, his body was lost at sea.

For over two centuries, the whereabouts of John Paul Jones' body remained a mystery. That is, until one man became obsessed with finding it.

His name was Patrick Young, and he was a retired naval officer with a passion for history. In 1999, he began a lifelong quest to find the body of John Paul Jones. He spent years studying old maps and documents, and he traveled to France, Russia, and the United States in search of clues.

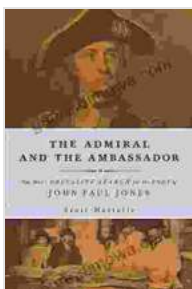

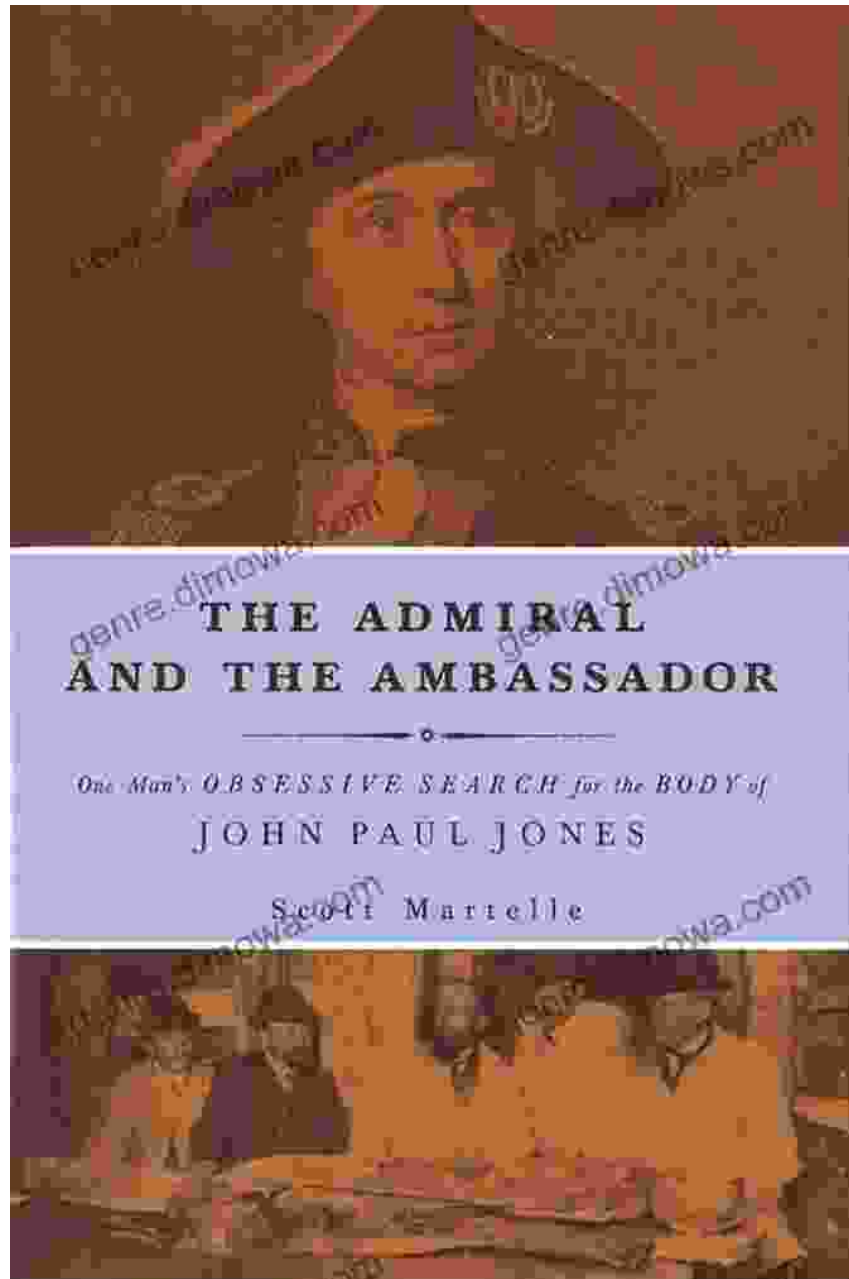

In 2005, Young finally had a breakthrough. He discovered a document that suggested that Jones' body had been buried in a pauper's grave in Paris. Young traveled to Paris and began excavating the grave. And on September 3, 2005, he made a startling discovery: the remains of John Paul Jones.

The discovery of John Paul Jones' body was a major historical event. It not only solved a centuries-old mystery, but it also gave the American people a chance to finally pay tribute to one of their greatest heroes.

Patrick Young's story is a fascinating account of one man's obsession and determination. It is a story that will inspire anyone who has ever dreamed of achieving something great.
